

Victor Queiroz

PRODUCT DESIGNER (UI/UX)

[Portfolio](#) [LinkedIn](#) victornqueiroz@gmail.com

Overview

Product Designer (UI/UX) with 10+ years of experience designing and delivering digital products from concept to release. Skilled in translating complex business and user needs into intuitive, user-centered solutions, particularly in SaaS and data-driven platforms.

Experienced working across design, product, engineering, and marketing, with a strong focus on collaboration, usability, and measurable outcomes. Experienced designing for both Japanese and global users, considering localization and usability across markets.

Skills

UX/UI Design, Product Design, User Research, Prototyping, Interaction Design, Design Systems, Data Visualization, Agile Development, Jira, Figma, Adobe Suite

Experience

Creative Specialist (Design & Growth) — Build+

Tokyo, Japan | May 2021 - Present

- Designed digital experiences and content to improve user engagement and candidate conversion.
- Applied UX principles to optimize user journeys across web, campaigns, and communication touchpoints.
- Improved clarity and usability of user-facing communication through UX writing and content design.
- Led creative direction for digital initiatives, ensuring consistency across brand and user experience.
- Collaborated with marketing and leadership teams to align design output with business goals.

Product Manager / Product Designer (UI/UX) — Attuned.ai

Tokyo, Japan | Aug 2018 - May 2021

- Led end-to-end product design for a workplace analytics SaaS platform using behavioral data and AI.
- Designed data visualization dashboards to help managers make informed decisions about team performance.
- Created wireframes and prototypes in Figma, iterating based on user feedback and stakeholder input.
- Built and maintained UI components and patterns to ensure consistency across the product.
- Collaborated with engineering teams in Japan and Vietnam to deliver features in Agile environments.
- Conducted user research and usability testing to validate design decisions and improve product usability.
- Contributed to product direction by aligning user needs with business and technical requirements.

Head of Product / Product Designer — Justa

Tokyo, Japan | 2017 - 2018

- Led product design and UX for a startup job marketplace targeting the Japanese market.
- Designed and improved onboarding and job discovery flows, contributing to growth from 10,000 to 25,000 users.
- Designed responsive interfaces across desktop and mobile experiences.
- Established UI patterns and improved usability across the platform.
- Worked closely with developers and stakeholders to define and deliver product features.

COO / Product & UX — Linte

São Paulo, Brazil | 2016 - 2017

- Designed UX/UI for a cloud-based legal management platform to improve workflow efficiency.
- Conducted user research to identify pain points and translated insights into product improvements.
- Collaborated with engineering teams to deliver product features and enhancements.
- Supported company growth by scaling the team from 2 to 10 people.

Founder / Product & UX — VaiVolta

São Paulo, Brazil / Mountain View, CA, United States | 2014 - 2016

- Designed and launched a digital platform that grew to 15,000 users within two years.
- Led product development from concept to release, including UX design and user flows.
- Raised investment and participated in the 500 Startups accelerator program in Silicon Valley.

Education

Degree in System Analysis and Development, UNICAMP - 2011

Programming: C/C++, Java, JavaScript, MySQL

Languages

English (fluent), Japanese (JLPT N2 level), Portuguese (native), French (conversational).
